Description: Luxardo London Dry Gin is the result of an accurate selection of nine botanicals such as juniper, coriander, iris, angelica, licorice, cinchona, cinnamon, cardamom and bitter oranges left in alcoholic infusion for twenty-four hours in our traditional copper pot stills before distillation. After nineteen days of refinement, the product is filtered, diluted and ready to be bottled. The actual recipe of the Luxardo London Dry Gin goes back to the famous “Ginepro di Dalmazia”, produced by the Luxardo family since the beginning of the 1900’s. The Luxardo family has been producing a juniper based distillate, ancestor of the more modern gin spirit, since 1833, when it first appeared on a price list of the company. Luxardo London Dry Gin can be used in many classic cocktails such as the Aviation and the Negroni, and is ideal with tonic water for the world-wide favorite “Gin & Tonic”.
